# DeWit® Spike weeder with ash drop grip handle

The Spike weeder is a combination of a rake and a cultivator. Instead of only working from front till back with a cultivator the spike weeder can be used in a circle, you can move it to any direction you want. Because of the narrow tines it's loosening soil pretty easy. This tool is not made to use in clay soil! With the 48cm drop grip handle you can reach more areas in your border.
