## Fence post auger 75mm

The traditional Dutch farmers auger. The US farmers are used to post for the fence, many other countries are using round fence post. This kind of Dutch auger is made for palce round post for fencing in your backyard. With the auger turning clockwise at the location you want to place the fencepole, the drill goes in the dirt and creates a hole. After 3 turns you pull the auger up, clear the dirt from the drill and repeat until you have reached the depth you want. Maximum 3 ft deep with this auger.
