## Serrated planting trowel 'Welldone'

A trowel that cannot be ruined by anything with a feature; the serrated cutting edge. The blade on it's own is already sharp as a razorblade. With the serrated blade you have even more benefits to cut through roots and the heavy soil. The creation of a not bending, not breaking and never let you down gardentool. It is the **welldone trowel**. Designed by DeWit, strong as a buffel.

### Specificaties
